DETAILED ACTION

Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest a game device and method having all of the limitations of the claims. In particular, each independent claim recites that a plurality of concepts "compete" with each other, rather than players competing against each other. The specification adequately describes how the game operates so as to allow for "competition" between competing concepts, and also enables one of ordinary skill in the art to understand what is meant by the terminology. Many different types of games, including board games, are of course known. Several types of non-competitive games are also known, as disclosed for example by Braddock, Cohen and Juranovich. None of these references disclose games where concepts compete each other as recited in the current claims, nor is there any motivation to modify the prior art in such a manner without using impermissible hindsight. Consequently, the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3712

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Braddock, Cohen, Juranovic, Wawryck, Was, Johnson, Truong, Ramos, Lim, O'Connell, Butler and Jordan disclose various board games.
